

**Innovative Technology for the Global
Travel and Hospitality Industry**

trawex[®]
Earth's Travel Technology Platform

Empower your business with cutting-edge, advanced payment gateway technologies and provide the best customer experience. At Trawex, we manage every aspect of your payments; from acquiring, to alternative payments, to risk management, authentication and security, to paying your partners and suppliers.

Higher Conversion Rate, our payment solutions provide simplicity, mobile optimization, security, enhanced features, dynamic switching, intelligent session retry and more. It will set you a class apart from the rest, converting into better conversions.

Multi-channel Processing, accept payments seamlessly across all sales channels and devices either online, on mobile devices, mail-to-order or via the call center. Through the several channels of payment acceptance, all your transactions reconcile in one easy-to-use location.

Multi-currency Support, our payment gateway solutions allow customers to submit payment through all major debit/credit cards and accept all the currencies from the globe. You can support the payment gateway preferred by your user as Trawex offers a variety of options.

One-click Payment, with the demand for quick, easy and hassle-free online payments on the rise, we've enabled the highly sought-after one-click payment feature to store card details. Increase sales with one-click payments and improve customer retention.

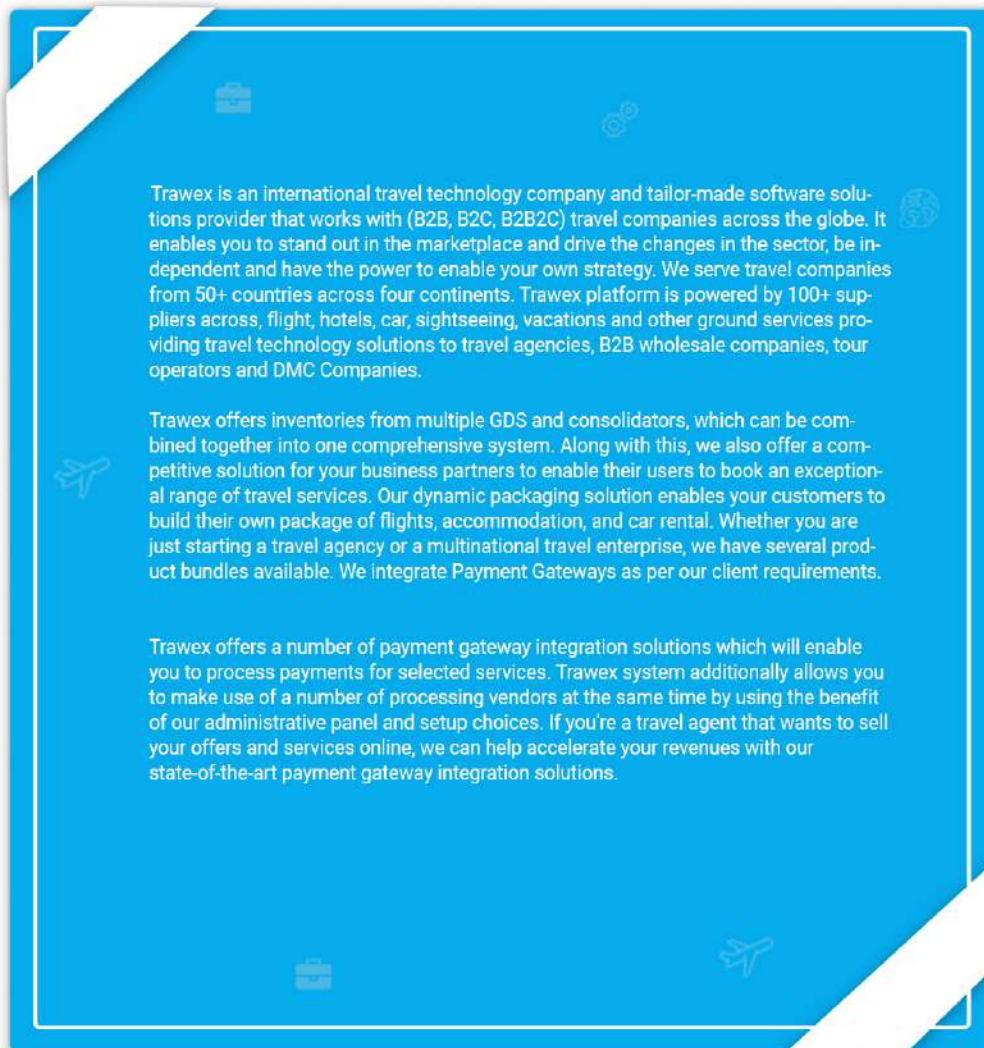

Value-Added Payment Solutions add more functions to your eCommerce site from online booking for hotels, electronic vouchers to payments via QR codes and more. It provides potential customers with a feature or add-on that gives it a greater perception of value.

Multiple Payment Mode, our system integrates with PayPal, ApplePay, VISA, MasterCard and many more making it easy and convenient for your clients to choose their preferred mode of payment and enabling businesses to accept more payments from worldwide customers, thus significantly increase business revenue.

Risk Management System, we have a powerful risk management system in place based on various safety parameters that are in compliance with international standards, to help you identify, manage and monitor transaction risk.

Transaction, once the transaction is completed, your client receives a confirmation mail and an on-screen message that assures them that the transaction has been successfully completed. All transactions are protected. Our security innovations ensure users stay protected from the risks.

About us
